Elegant State-of-the-Art Full Service Convenient

USP Meetings Center
“The property is stunning with state-of-the-art technology, and the staff is what every five-star hotel aspires to be. I’ve never had to ask for anything as it was already provided. The property is conveniently located... which makes attending the meeting easy.”

Janie Severance
National Alliance of State Pharmacy Associations (NASPA)

Events held at the U.S. Pharmacopeial Convention (USP) Meetings Center are defined by its elegant, light-filled architecture, state-of-the-art technology, and full-service amenities. Conveniently located in the DC metropolitan area close to FDA, NIH, NIST, and other scientific organizations, the center is available for rental by nonprofit organizations [501(c)(3) or 501(c)(6)] whose missions are science-based and/or support public health. USP offers competitively priced all-inclusive meeting packages and flat rental fee options for groups of up to 250 guests.
The USP Meetings Center offers great value and exceptional service. Its various configurations allow me to use it for smaller hands-on trainings and larger educational forums. The all-inclusive packages really simplify the event-planning experience.

Heidi Souerwine
Regulatory Affairs Professional Society (RAPS)
